

## Simple, reliable, and affordable ... for hospitals of any size

EPR Credentialing System is web-based, so there is no software or hardware to buy. Pricing is based on the number of physicians and other providers who will be credentialed through the system, making it affordable for hospitals of any size.

## Secure ... controlled ... and yet readily accessible to physician leaders and others as needed

**Security** — The same security, encryption and intrusion detection used by major financial institutions protects your credentialing data in the EPR Credentialing System.

**Nightly backups** — Full data protection and nightly backups ensure your data is there when you need it.

**Password Protection** — We'll issue a login name and password to the person designated as your hospital's Facility Administrator. The Facility Administrator has full access to all of the many features in the EPR Credentialing System and can add and remove other users and establish their level of access. For example, physicians can complete their reappointment applications online. Department chiefs and Credentials Committee members can review pending applications online.

## State-of-the-art credentialing

**EPR Credentialing System** can help you make your credentialing processes efficient and effective, saving medical staff professionals and physician leaders valuable time!

## CREDENTIALING SYSTEM

includes

- forms and letters from the **HORTYSPRINGER** Medical Staff Leader Handbook on-line resource

- background checks from

**Extensive Provider Profile**

EPR Credentialing System's provider profile captures the information about an applicant needed for most hospital, managed care and CMS application forms. Enter data for each provider once and never have to enter it again. The EPR Credentialing System can manage up to 2,700 data elements for each provider.

**FormBank™**

EPR Credentialing System's FormBank™ includes hundreds of laser-quality application forms from major third-party payors and state and national organizations.

**Data Mapping of New Forms**

Don't see the form you need? We'll do the data-mapping and add it to the FormBank™ for you. No need to learn programming just to get a new form!

**Automatic Application Form Completion**

Choose a physician and a form from the FormBank.™ The data from the physician's profile will automatically complete the chosen form. Add any unique information into the form right on the screen, save the completed form and you're done. Improved accuracy and completeness gets the physician's application through the credentialing process faster and easier.

Having trouble getting physicians to return their reappointment application forms on time? By providing physicians with forms that are "pre-populated" with basic information, you can help physicians get their reappointment applications returned in a timely manner, relieving a big headache for the Medical Staff Office.

This feature is critical for any hospital that owns or manages physician practices because it greatly expedites application processes with third-party payors.

The screenshot shows the EPR Credentialing System interface for a provider profile. The user is logged in as 'Bowers, William R MD 13657'. The interface includes a navigation menu with options like 'Status Log', 'Mgmt. Reports', 'Admin', 'Verification', 'Privileging', 'Credentialing', and 'Quality'. The main form is titled 'Personal Data' and contains various input fields for personal and professional information. Key sections include:
 

- PROVIDER TYPE:** Radio buttons for 'Allied Health Professional' and 'Medical' (selected).
- PROVIDER INFORMATION:** Fields for LAST NAME (Bowers), FIRST NAME (William), MI (R), PREFIX (Dr.), SUFFIX, and TITLE (MD).
- IDENTIFICATION:** Fields for CAQH #, CAQH DATE, NPI # (12345), UPIN # (G34399), MI, PREFIX, SUFFIX, and TITLE.
- PERSONAL DATA:** Fields for DATE OF BIRTH (12/15/1966), SSN # (252-49-0640), LOCAL STATE L & I #, SEX (Male), and MARITAL STATUS (Married).
- DRIVER'S LIC:** Fields for DRIVER'S LIC (123456789), ISSUING STATE (GA), EXPIRATION DATE (12/15/2014), TB TEST DATE, and TB TEST EXPIRATION DATE.
- Place of Birth:** Fields for COUNTY (Thomasville), CITY, STATE (GA), and COUNTRY (USA).
- CITIZENSHIP:** Fields for CITIZENSHIP (Spanish), VISA STATUS, VISA NUMBER, and VISA EXPIRATION DATE.
- Languages:** A dropdown menu for 'LANGUAGES (OTHER THAN ENGLISH)'.
- Facility Data:** Fields for LOCAL ID #1 (29871), LOCAL ID #2, DUES AMT (100), DUES DATE (01/20/2009), DUES REC'D (01/10/2008), STAFF CATEGORY (Active), and PRIVILEGE STATUS (Not Selected).
- APPOINTMENT DATES:** Fields for INITIAL APPOINTMENT DATE (01/20/2005), LAST RE-APPOINTMENT DATE (01/20/2007), RE-APPOINTMENT DATE (01/20/2009), and ATTESTATION DATE (01/10/2007).
- SPECIALTY:** A dropdown menu for 'SPECIALTY' with options like Orthopaedic Surgery, Surgery, and Orthopaedics.

**Attach Licenses & Certificates**

EPR Credentialing System allows you to attach scanned copies of licenses, certificates and even photos of physicians to applications.

**Track Licensure and Certification Expirations**

EPR Credentialing System tracks expiration dates for licenses, board certification and recertification, DEA certificates and insurance policies. The System will notify you up to 120 days in advance of the expiration date.

**Track CME**

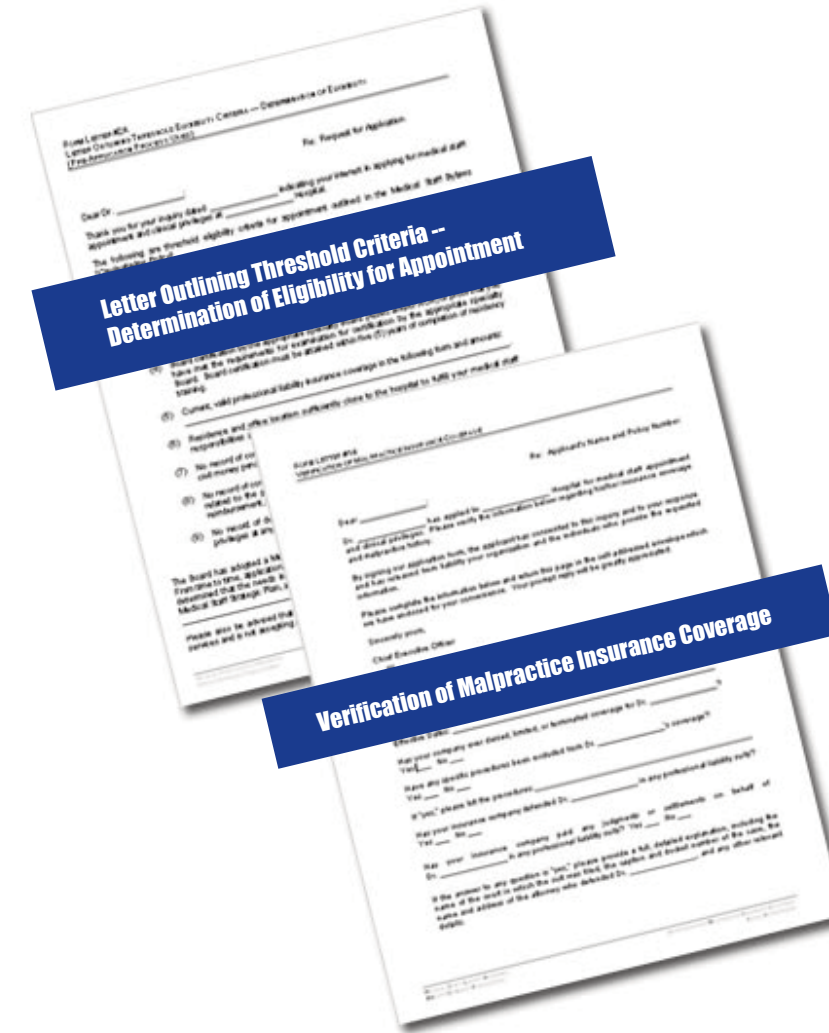

EPR Credentialing System keeps track of CME credits received and credits needed for any period of time by an individual or an entire group.

**Robust Reporting Engine**

Reports of all kinds are pre-loaded into the EPR Credentialing System or build your own with the powerful drag-n-drop My Reports™ tool.

**Verification forms and letters from the HorthySpringer Medical Staff Leader Handbook On-line Resource**

Verification forms, letters and other hospital correspondence from the HorthySpringer Medical Staff Leader Handbook On-line Resource are encoded to merge your provider data.

**Also ask about...**

**EPR Privileging System**

Including threshold criteria, core and special privileges for all medical specialties.

**Track Primary Source Verification**

EPR Credentialing System keeps track of the exact status of primary source verification for each applicant from reference letters to database queries.

**Query the National Practitioner Data Bank**

EPR Credentialing System allows you to send queries to the National Practitioner Data Bank online without exiting the EPR Credentialing System.

**Precheck Criminal Background Checks**

Interface directly with your Precheck account to document criminal background report findings.

**Create, Edit & Send Form Letters**

Create verification form letters or edit those provided to you from the HorthySpringer Medical Staff Leader Handbook Online Resource.

**On-line Application Review**

Allow Department Chairs and Credentials Committee members to review a physician's application and supporting documentation online and submit any comments or concerns for consideration by the entire Credentials Committee.
